

Junior & Adult Program - CODING CAMP LONDON

Learn Computer
Coding in English,
discover London!

For individuals (16+)
For junior groups

New course for 2018: Coding and App development course Powered by Nacel English School London

English + Coding are two key professional skills in our current and future economy and society. English language skills are a must for Coding and Computer Programming activities: give yourself the opportunity to try something different!

Learn 2 skills in 1 trip

Our educational concept is to give students the opportunity to practice their English in real situations, gain confidence and believe in their knowledge and capacity to learn something new.

The Computer Programming camp allows students to attend various Coding and Development courses, both for computers and cell phones technologies. It gives students the basics of Coding and Programming and opens their mind to a complete new world of personal and educational development. We complete their experience with a range of activities, visits and excursions in and around London.

Courses available:

- *Unity Game Development with C#*
- *Web Development*
- *Python Programming*
- *iOS App Development*
- *Android App Development*
- *Java Game Programming*
- *Tech Entrepreneurship*

Available all year round for closed groups.

Junior Program :

- From 1 week
- Residence or homestay
- Up to 15 hours/week of coding course by specialized experts used to teach technologies to young learners
- Visits, activities and excursions on afternoons
- Oyster card
- Naceles English School friendly staff support
